NOTIFICATION OF FIRST FILING OF U. S. PATENT APPLICATION

Notification Date: 19 May 1977

Target date for instructions to foreign file under Convention: 1-28-77

U. S. Serial No. 791,896

Filing Date: 28 April 1977

Subject: IMPROVED BROWN CIGARETTE WRAPPERS (PM 751)

Applicant: Tibor S. Laszlo

The period for foreign filing under the International Convention runs one year from the above-listed U. S. filing date.

Filing under the International Convention should be requested and agreed upon within nine months (see above Target Date) after the relevant U. S. filing date, in order to avoid possible extra costs due to last-minute efforts to meet the one-year deadline.

Foreign applications can be filed after the Convention period unless barred by prior public disclosures.

This will be the last general notice on possible foreign filings until allowance of the U. S. application except for the usual case-by-case presentations for the Foreign Filing Committee. A notice will be sent upon allowance, unless intervening public disclosure would bar foreign filings at that time.

APPLICATION OF

TIBOR S. LASZLO

FOR UNITED STATES PATENT

ON

IMPROVED BROWN CIGARETTE WRAPPERS

(PM 751)

Abstract of the Invention

The present invention relates to brown cigarette paper having reduced gas phase constituents during pyrolysis wherein the paper which has been stained with humic acid or salts thereof is further treated by washing with water in an amount effective to reduce the amount of water-soluble alkali metal salts present in the paper.
